MOVING FORWARD TOGETHER WITH EU EXPERTISE

Aim of the Workshop:

The workshop aims at providing support to the organization of an Interregional Dialogue on Green Budgeting and offer the opportunity to exchange best practices at regional level. The ambitious environmental targets set out to tackle climate change and post Covid challenges require various implementation approaches and practical solutions reflecting the different conditions in the territories. Exploring the variety of practices in experienced European Regions will be of inspiration for widening and improving the implementation of green budgeting at Italian regional level, improving cooperation among different levels of government and territories with different level of experience, and strengthening administrative capacity going through concrete examples.

The workshop is targeted to officials from all the Italian Regions and Autonomous Provinces, experts in green budgeting. The Cinsedo will schedule the workshop within the 2024 “Training Programme”.
